

BC Hockey Skills Summit

BC Hockey in conjunction with Hockey Canada is proud to present the first ever Branch Skills Summit for Coaches. This isn't your average Coaching Clinic, we are teaching skills. Specifically, we are teaching our delegates how to teach specific skills to their team. This has been identified as "what coach's want" and a component that regular clinics don't emphasize. This summit, which is based on the material in the National Coach Mentorship Program (NCMP) and created by Hockey Canada, will train coaches from across the Branch in the specific skills of:

- Creating offense/Creating defense
- Puck control/Skating
- Creative thinking/Small Area Games
- Special Teams

Coaches are placed in groups and instructed on the above skills by a BC Hockey trained Course Conductor, Hockey Canada representatives and special guest(s). Each group will attend on ice sessions, classroom sessions and observation sessions. Delegates who attend this summit will receive Coaching Credits which will be listed on their permanent Coaching record on the Hockey Canada Registry (HCR).
